FLOWERING TREES

of the

ORIENT

A. E. Wohlert
Narberth, Pennsylvania

We wish to acknowledge receipt of your request for "*Flowering Trees of the Orient.*" Our supply of books is completely exhausted, but we shall be pleased to send you our 1929 issue as soon as it comes off the press, latter part of February. We sincerely hope that this Price List will serve your purpose until we can send you the new book which includes complete descriptions and pictures of our trees.

Very truly yours

A. E. WOHLERT.

CONDITIONS OF ORDER

PRICES in this catalog cancel all previous price lists and are subject to change without notice. Prices are f. o. b. our shipping station, or for local delivery f. o. b. customer's place if within 15 miles of our Nurseries.

TERMS—Cash with order, except to persons who satisfy us as to their responsibility, when accounts will be due in 10 days. Overdue accounts subject to interest at 6%.

GUARANTEE—While we give no guarantee for the life of the stock we supply, which is in first-class condition when leaving our nurseries, we are willing to furnish a guarantee for an additional 15% of cost price to replace, free, stock that dies within one season after planting. Such replacement will be shipped f. o. b. our nurseries, with packing charges extra.

CLAIMS—To receive consideration it must be made within 10 days after receipt of goods.

SHIPPING INSTRUCTIONS—Shipping season opens about March 1st. Fall shipments may be made after Oct. 1st. Our stock is regularly inspected and certificate will be sent with each shipment.

Prices listed herein cover good average nursery stock not specimen trees selected in the nursery by customers, for which higher prices will be charged according to the value of the individual trees.

Packing of heavy and specimen trees such as Flowering Crabs and Cherries at a value of \$15.00 and over, as well as Weeping Cherries at a value of \$10.00 and over, will be charged at a rate of 20% additional to cost. An extra charge of \$1.00 to \$3.00 for Ball and Burlap, depending on size of stock. No charge for packing other trees.

On account of labor and general overhead expense involved, no order less than \$5.00 can be accepted.

Write plainly and give explicit directions as to address and mode of shipment. When no shipping directions are given we will use our best judgment and forward by shortest and safest route, usually *express*.

We do not advise B&B (Ball of soil wrapped in burlap), because of the heavier shipping charges due to the increased weight. For any B&B shipments that *are* necessary we would advise forwarding by *FREIGHT*, *unless the factor of time makes EXPRESS shipment advisable*.

	Size	Each	10
APRICOT, Flowering (Japanese).			
Mume Dawn, large and beautiful double pink	4-5' 5-6'	3.50 4.00	
Early Double Pink, two or three weeks earlier than Dawn	4-5'	3.50

Very bushy.....	6-7'	8.50	80.00
Specimen trees.....			
Avium Flora Plena , double pure white	3-4'	4.00	
A very fast and symmetrical growing tree, covered with double white flowers; a real shade tree, too.	4-5'	5.00	
	5-6'	6.00	50.00
	6-7'	7.00	60.00
	7-8'	8.00	70.00
	8-9'	9.00	
	9-10'	12.50	
Autumnalis , semi-double flowers, pink, blooms in fall and early spring, very unusual and rare. We have only thirty of this sort. New.	18-24"	3.00	
Beni-Higan-Zakura (Higan Cherry, P. Subhirtella) "Spring Cherry" first to bloom, very prolific, blush pink, small single flowers that bloom with the last snows of winter. Not a weeping sort. Mr E. H. (Chinese) Wilson calls Beni-Higan "the most floriferous and perhaps the most delightful of all <i>Japanese Cherries</i> ." It is a large low-branched shrub rather than a tree and is not known as a wild plant. There are large plants in the Arboretum collection where they have been growing since 1894 and where, covered with their drooping pink flowers, they are objects of wonderful beauty. The value of this variety is increased by the fact that the flowers often remain in good condition for ten or twelve days, and longer than those of the other single-flowered cherry trees.	3-4'	7.50

**CERASUS (Prunus) Japanese Flowering
Cherries (Continued)**

	Size	Each	10
Sekizan-Zakura (Kwansan), Old rose; late; spreading; bushy. A good sort. Large drooping heavy flowers; very double. The color is deep pink, changing to old rose; one of the deepest colored varieties, and possibly one of the most popular. In Washington, D. C., it is one of the most striking sorts.	6-12" 12-18" 18-24" 2-3' 3-4' 4-5' 5-6' 5-7' 6-7' 7-8' 7-8'	1.50 2.50 3.00 4.00 5.00 6.00 7.50 8.50 10.00 15.00	
Extra heavy.....			
Serrulata Albo-Rosea (Shirofugen) Vigorous; light pink; large double flowers.	18-24"	3.00	
	2-3'	4.00	
	3-4'	5.00	
	4-5'	6.50	
	5-6'	7.50	
	6-7'	10.00	
	7-8'	15.00	
Ukon Zakura "The Golden Cherry," yellow double, vigorous grower, spreading.	6-12" 12-18" 18-24" 2-3' 3-4' 4-5' 5-6' 7-8'	2.00 2.50 3.00 4.00 5.00 6.50 7.50 15.00	15.00 20.00 25.00

1100 JAPANESE CHERRY TREES ARRIVED TO-DAY

SAMUEL MOFFITT'S GIFT TO ST. LOUIS WILL BE TRANSPLANTED IN FOREST PARK

"A shipment of 1100 Japanese Cherry Trees, which Samuel Moffitt, former St. Louisan, has given to this City for transplanting in Forest Park, is expected to reach here to-day, Park Commissioner Pape said yesterday.

The Trees will be planted immediately on the slope of Goverment Hill, in Forest Park, where a beauty spot unequaled in any other City is planned. The Trees well fringe the development.

The Trees which will be received here, are from four to six years old, and are all that are available for purchase in this country. They are being sent from Nurseries at Narberth, Pa., their roots encased in moistened peat.

Pape yesterday said:-That the trees could hardly be expected to make much of a showing this year Blooming in middle April or early May - their growth will be temporarily retarded by transplanting. Although no attempt has ever been made to grow Japanese Cherry Trees here, Pape sees no reason why they should not thrive.

Moffitt - the donor - is a retired Capitalist, now living in New York. The Trees are worth an aggregate of about \$15,000.

"CITIES OF FLOWERS ATTRACT VISITORS." E. H. Angert says.

HORTICULTURIST ATTORNEY TALKS TO WOMEN'S AD CLUB.

"Attracting visitors to St. Louis by means of horticultural displays, would be a wise commercial undertaking," declared Engene H. Angert, Attorney and President of the newly organized St. Louis Horticultural Society, in an address before the Women's Advertising Club Luncheon, yesterday at Hotel Statler.

"The planting of 1100 Japanese Cherry Trees in Forest Park, through the generosity of a public minded citizen, will in a few years attract twice as many visitors annually, as the Veiled Prophet Parade," Angert declared.

"Flowers Enticing"

"In Washington, D. C. when the Japanese Cherry Trees are in bloom, visitors flock into the City by the train load for the Gorgeous Spectacle," Angert said. "Rochester, N. Y., attracts tens of thousands of people to visit the wonderful Lilac Parks, in Lilac Time.

When it is necessary to call out the police force to handle the crowds, as it was yesterday at Shaw's Garden, at the annual flower show, - it is evident flowers are an attraction.

The associated Industries raise \$1,000,000 to bring new industries to St. Louis, whereas no one thinks of raising \$10 to make St. Louis a more beautiful place for the people already here or to make it attractive for others to come here to live. Flowers and Shrubs are a civic asset that cannot be over emphasized.

When I landed at Southampton, on a trip to England, I was impressed with the backyard gardens all the way up to London. Although they were the homes of workmen, they were a perfect riot of blossoms. I do not think you could find three gardens in all St. Louis, to equal 10,000 on the way to Southampton."
